IV. CONTINUING EDUCATION SPONSOR APPLICATIONS FOR REVIEW

Ms. Braness reported that the Board had not received any new sponsor applications to date.

V. OTHER BUSINESS

- *Discussion: Iowa Administrative Code 650—Chapter 25, “Continuing Education”*

Ms. Braness reported that the committee was provided an updated draft of the rules.

Ms. Beasler questioned a proposed update in 650—25.5 related to the approval of continuing education hours for practice transition. Ms. Braness explained that the intent was to award credit for courses focused on how to transition patients and records upon termination of a practice.

The committee members understood the intent following the explanation, but believed that the current draft was confusing given the ineligibility for topics related to the business aspect of practice.

Ms. Braness suggested updating the language to clarify that the focus of these courses should be on the patients and their records, as opposed to the business aspects of business transition and discontinuation. The committee members agreed to that change.

Ms. Schlievert had a separate question related to the proposed changes to 650—25.5. Specifically, she asked about the portion that indicated that courses would not need to be submitted for approval. Ms. Braness stated that it was not possible for the committee and the Board to review all courses attended by licensees and registrants. This was intended to simplify the process for determining eligibility for most courses. Ms. Stuecker clarified that the new language reflected current protocol; though, this is not specifically addressed in the current rules. Ms. Stuecker also noted that all continuing education would remain subject to audit. Licensees and registrants would need to demonstrate eligibility for credit if a course were questioned during an audit.

VI. OPPORTUNITY FOR PUBLIC COMMENT

No comments were received.
